

AeroLux Coin (ALC) - Whitepaper (Corrected)

1. Introduction

AeroLux Coin (ALC) is a revolutionary cryptocurrency designed to transform the world of air travel. With blockchain technology, ALC offers a decentralized loyalty and rewards system that integrates with airlines, travel agencies, and aviation services worldwide.

2. The Problem

- Airline loyalty programs are difficult to redeem and fragmented.
- Booking processes are inefficient and lack flexibility.
- No cross-platform reward system exists across airlines and travel providers.

3. The Solution

- Decentralized travel rewards using a utility token.
- Low-cost, transparent, and borderless transactions via blockchain.
- Cross-platform interoperability for global airline partnerships.

4. Tokenomics (Corrected)
